

Graduate Career Management Center @ Zicklin Getting Started

Welcome to the GCMC! The investment you have made in pursuing a Zicklin graduate degree is smart, courageous, and perhaps a little scary. It affords you an opportunity to explore who you are, and who you can be.

From a professional development perspective, there is nothing better than this type of experience. We're excited and proud to be a part of your journey. As you will read in our [Mission Statement](#), we are committed to providing you with the resources necessary to plan and execute an effective job search. Your career goals and efforts are, of course, yours. You lead; we partner.

We have a saying at the GCMC: Two years to goal. This means if you are attending Zicklin on a full-time basis, begin working with the GCMC in your first semester. If you are a part-time student, begin working with the GCMC as soon as you wish, but no later than 2 years prior to graduation. An early start can make all the difference in your success and sanity! You will have an opportunity to meet the GCMC team in December. In the meantime we have outlined a few crucial next steps to orient you to the GCMC and to help you begin thinking about both your short-term and long-term career goals.

- Take a look at our [web site](#).** Familiarize yourself with the resources and services that are available to you through the GCMC. The resources only work if you choose to use them!
