Program Description	The Full-Time MBA is Zicklin’s traditional full-time cohort program. Students come from diverse professional and academic backgrounds, and the Full-Time MBA is optimal for career-changers – whether you are moving from one industry to a completely new one, or moving into a new functional area within an industry. The program’s format allows you the time and resources to integrate critical career management activities into your total experience, including professional development, personal networking activities, and internships.	Zicklin’s professional evening MBA provides preparation for a competitive business environment. Both our students and our faculty come from broad career and educational backgrounds. Such diversity affords rich learning experiences, limitless networking, and opportunities to develop as an individual, a teammate, and a leader. Our students are at various points in their personal and professional lives. The MBA will enhance the knowledge for a current career path, and provide the foundation to explore new possibilities. Students are able to pace their degree progress based on their commitments and responsibilities.	Zicklin's MS degree programs offer concentrated, in-depth study in a business discipline for students with baccalaureate degrees in business and non-business areas. Unlike the broader MBA curriculum, students take the majority of their courses in a specific discipline. The MS is for students with well-defined interests who wish to maximize their expertise. Because the MS is more specialized, fewer courses are required than for the MBA. Students must complete a minimum of 30 credits. See individual MS program descriptions for further details.
Format	57 credits, cohort throughout the MBA core, daytime classes in the first year, primarily evening classes in the second year allowing for additional internships	57 credits, primarily evening; January and summer sessions available; students may take no more than 9 credits in the first semester and are not limited after that	Full-Time and Part-time study in evening courses.
